

Export build sheet

Voltage, IP ask and crate marks we can pack. Empty cells stay “quoted per job”. We do not list an assembled sign to UL 48, CE, RCM, PSE or KC unless that job is quoted.

DESTINATION	AC IN	HZ	DRIVER / LED	TYPICAL IP ASK	CRATE MARKS	WE DO NOT
EU	230 V	50	Meanwell-class; CE-marked modules if specified	IP65 outdoor	Voltage + pack list + QC photos	Local install. CE DoC unless a technical file exists
UK	230 V	50	Same path as EU; mark destination UK	IP65 outdoor	Voltage + pack list	Same as EU + municipal licences
US	120 V	60	UL-recognized parts if specified; 277 V per job	Wet-location as quoted	Voltage + current	UL 48 listing / NEC 600 hook-up
AU	230 V	50	230 V crate; RCM path if specified + local supplier	IP65 outdoor	Voltage + pack list	RCM registration / AS/NZS 3000
JP / KR	Quoted if the job is for JP/KR — no default on this sheet.					Do not assume 230 V or CE

Quote is not an order

Incoterm confirmed before production. Pack list and voltage labels ship with the crate.

We do not install

Local install is your contractor. We can mark studs and send an install note.

Listing is extra

Whole-sign certification, wind load and outdoor-ad permits are quoted separately or done locally.
