2-pac Pantone on fabricated metal

Aluminium / SS
Face 1.0–2.0 mm typical

2-pac Pantone
Gloss or satin

Shenzhen shop
Packed for export

BUILD OPTIONS

Colour-matched letters sprayed in our own booth.

MATERIALS	Aluminium or SS304/316
THICKNESS	Face 1.0–2.0 mm typical
FINISH	2-pac polyurethane, gloss or satin, Pantone
LIGHT	Usually unlit; can add halo
INSTALL	Stud, base plate, or through-bolt
PACK	Corner protectors + crate on large pieces

Free-standing 3D
Floor or plinth letters for lobbies and launches.

Fabricated painted
Standard channel or pan letters, painted all sides.

Painted crafts
Smaller dimensional logos and icon marks.

Colourful painted
Multi-Pantone jobs where plating cannot hit the brand colour.

PROCESS REFERENCE

RFQ

What to send

- Pantone reference or physical sample
- Artwork with outlined fonts
- Letter height and return depth
- Indoor, outdoor, or coastal site

Pantone matching needs a reference — a photo of the colour is not enough to spray to.

On the quote

- Lead time after artwork lock
- Gloss or satin finish
- Incoterm and crate type

Coastal paint systems are quoted per site. See the Export build sheet.
